

# 7 HABITS OF HIGHLY **INEFFECTIVE** STUDENTS

Emporia, Kansas | [happy@tekeffect.net](mailto:happy@tekeffect.net) | DustiHowell.com | 620-412-8808

---

## MULTIMEDIA ASSEMBLY:

---

This entertaining program challenges and empowers students to improve their choices and habits. Often students learn best by seeing how not to do something. Strategies are given to help prevent these bad practices from negatively impacting their schooling. Students will learn test taking, time management, reading strategies, and much more. Each student leaves with one habit they pledge to work on for 3 weeks.

---

## WHY NOW?

---

- The information explosion continues to grow exponentially. Lifelong learning is the new expectation. At the same time, more and more students are struggling academically, and standardized test scores are plummeting. More than ever, students need to learn how to learn. Empowering learning strategies will be shared that can help students dramatically!

---

## TESTIMONIALS

---

- *The time-efficient learning skills I have acquired will help me not only in my academic performance but also in everyday tasks and responsibilities.* Boro P. (Beijing, China)
- *This is one of those items that I wish I had learned about years ago. I believe it would have changed my academic life.* Marla E. (Kansas)
- *Dr. Howell's materials for academic success stem from sound scientific research and theory. They are cleverly designed and stocked with practical advice sure to help students succeed.* – Kenneth A. Kiewra, Ph.D. Professor of Educational Psychology, Univ. of Nebraska & Editor, *Educational Psychology Review*
